## EDITOR'S LETTER It's time for lavish layers.

As winter winds whisper, we think of lavish layers—not only coats, but also beautiful knitted items (sweaters, hats, gloves, etc.) to add and subtract as the temperatures change. Inside this issue, you'll find many options to wear and enjoy for years.

I hope you are in a relaxed state of mind as the New Year begins. So many of us take on too many obligations at this time, and the resulting balancing act between family and career can wreak havoc with our schedules and attitudes. Who gets left behind when too

much is crammed into too little time? Too often it is you!

Many of us make resolutions to begin a new year, and here are a few I'll share. Take a few minutes each day to recharge your inner batteries. Be sure to include time for knitting in your schedule. Be lavish with praise and frugal with criticism. Be as kind and forgiving to yourself as you are to your best friends.

Wishing you all the best in 2009,

*Barb*

## CREATIVE LETTERS

### Our readers share the beautiful creations from their needles.

#### Spa Cloth to Bedspread

I want to share the project I just finished from the January 2008 issue. I was inspired by the article about Lisa Gentry and the Spa Cloth pattern and made a few adaptations to create the cotton bedspread pictured below. Since I do not like to sew seams, I knitted the entire piece together. I just love the crisp look of the two-colored project!

Thanks for the great magazine!

Debra Hartman, Indianapolis, IN

*Congratulations on the completion of your beautiful counterpane, Debra. The changes you made illustrate perfectly how to make the project really personal! Well done!*

—Editor

#### Knitting Guild Helps Charities

The Manchester Knitting Guild meets often to work on community knitting, and the eight members have fun sharing ideas, patterns and their lives. They recently sent 12 sweaters to "Knit for Kids," using a pattern from *Guideposts* magazine. The knitters, who range in age from 42 to 82, have also knit for Warm-Up America, the American Cancer Society and their local churches and find it quite rewarding. One member even knits

while hiking and when sitting in the dentist's chair!

Sandy McHenry, Manchester Center, VT

*Your guild seems to have found the Fountain of Youth, Sandy, and it is no surprise that your delight comes with doing such nice things for others. Thanks for inspiring others to do the same. —Editor*

#### Thank Heaven for Little Girls...and Dolls!

Here is a photo of my granddaughter, Alexandra, with her doll in the matching outfit I made from the pattern in your June 2006 issue.

The design was easy to follow and was a big hit!

I have been knitting for 45 years, and enjoyed other patterns in that issue. Thank you for the design and please offer more of this type.

Linda Koulouris, Waterbury, CT

*There's nothing like that smile as a reward for your efforts, is there? Nice work, Linda. —Editor*

### Lucy Neatby's A Knitter's Companion DVD Series

If you ever dreamed of having a knitting instructor come to live with you, here is your opportunity. The genius of Lucy Neatby, designer and teacher, is evident from the moment you begin watching any of the DVDs. Presented in a clear and concise manner, each title is meant to be viewed in the segments you require at that moment. I am completely in awe of this learning tool!

Whether a novice or seasoned knitter, I guarantee you will be a happier one after a session or two with any of the titles. Buy it for yourself or as a gift to be treasured and used forever. View all the subjects at [www.lucyneatby.com](http://www.lucyneatby.com) or order toll-free at (866) 272-7796.

### The Fibersphere

The Fibersphere is an ingenious way to keep your precious fibers untangled and spotless while working on or transporting your project. The silky-smooth halves of the sphere open wide to allow insertion or removal of your yarn at any time, without the need to snip the yarn. Available in both 5-inch and 7-inch sizes, you may pick translucent white or pink.

A clever option is to connect two spheres to take along your two-color projects' yarns and have both protected.

About \$27.50. Contact [www.thefibersphere.com](http://www.thefibersphere.com) or (661) 312-8557.

### Incomparable Buttons

While choosing a pattern and yarn for your next cardigan, give thought to the closure you'll need. It makes sense to plan ahead to find the perfect buttons to finish your masterpiece. The selection in local yarns shops which carry the *Incomparable Button* collection from South Africa may inspire you to reach new heights!

These ceramic buttons are hand-painted, fully washable and dry-cleanable. The glazed finishes contain no lead, and the colors and themes seem endless. The buttons are made by artistic women, who provide for their families through this enterprise.

View the variety at [www.buttonmad.ca](http://www.buttonmad.ca) or contact Gillian Bradfield at [info@buttonmad.ca](mailto:info@buttonmad.ca).

# Show-off Scarves, Circular Cables and Knitting as Therapy.

## Nicky Epstein's Signature Scarves

By Nicky Epstein  
(\$29.95, Nicky Epstein Books,  
160 pages)

Prolific designer Nicky Epstein is recognized for her whimsical sense of design. In *Signature Scarves*, that distinctive style is in full force. Taking advantage of a range of fascinating techniques including shibori felting, appliqué, medallion knitting and unique edgings, Nicky has created scarves that will have you itching to take up needles and yarn. She hasn't forgotten classic designs, either. Here you'll find cable, Fair Isle, mosaic and lace scarves for everyone in the family. The book includes 33 scarf designs which cover all skill levels. There is indeed something here for the more advanced knitter. Techniques are clearly photographed, and the section on "How to Tie a Scarf" is particularly helpful once you have a colorful of knitted scarves to wear!

## Knitting Through It

Edited by Lela Nargi  
(\$17.95, Voyageur Press, 224 pages)

Throughout history, knitters have continued to knit when faced with economic, political and personal upheaval. In *Knitting Through It: Inspiring Stories for Times of Trouble*, editor Lela Nargi has collected essays, interviews and photographs about knitting through adversity. Some of the stories are from the WPA's Federal Writer's Project, others from contemporary authors who write on such matters as Native American knitting, and knitting in prison.

With chapter headings including Knitting Through Charity ... Illness ... Grief ... Work ... Unemployment ... Prison ... War ... Poverty and so on, this collection of stories is not a happy book, but it is a hopeful one. It helps us understand the common human experience and how knitting binds us through the ages.

## Continuous Cables

By Melissa Leapman  
(\$32.50, Potter Craft, 192 pages)

*Continuous Cables* follows up on the success of Melissa Leapman's *Cables Untangled* with the focus on closed-ring cables, a variation of the classic vertical cable.

Closed-ring cables differ from cable panels in that they have a true beginning and end—the cable closes on itself to resemble a knot. The subtitle of the book says it all: *An Exploration of Knitted Cabled Knots, Rings, Swirls, and Curlicues*. Melissa offers a selection of beautiful cabled designs for men, women, children and the home, plus a stitch dictionary that appeals to the hidden designer in all of us. Cable instructions are charted, which is (believe me!) the easiest way to read and understand them. If you've never knit a cable or

followed a cable chart before, you'll find that the how-to section includes all the information you need to learn these new skills. *Continuous Cables* is a valuable reference and project book for your knitting library.

# Eco-Conscious Crafting

## How to enjoy your knitting and be eco-friendly too

It seems that every product, from lightbulbs to automobiles, is now touted as “green” or ecologically sound. While an increase in awareness about how our purchases affect the Earth is a fine thing, if everything is promoted as a sound choice, how is anyone supposed to decide how best to shop? What’s a knitter to do? Organic? Undyed? Local? Worker-friendly? The confusion is enough to make even the most adventurous yarn shopper knit from stash for the rest of her life!

There is no one-size-fits-all answer. That’s the bad news. The good news is that there are several ways for the eco-conscious knitter to support her local yarn store and the Earth at the same time. Even a small step is a step in the right direction.

By making your sweater instead of buying it you are already being eco-friendly! Liz Shaw, design coordinator at Lion Brand Yarn, says, “Any time you reduce processing at any step [during manufacturing] it is a positive step. By choosing to create something from yarn rather than buying something commercially made you are reducing the number of steps in the process.” Factories that produce commercially knit items use energy for the plants and machines, energy that you don’t need since your needles are powered by your hands.

Durability is a key point in being an earth-friendly knitter. If you make a garment or household item that lasts for years, you are keeping trash in the form of damaged goods out of landfills, and limiting the amount of new items you need to buy. That’s not

even considering that you’re creating heirlooms for your descendants.

Buying locally made products from animals raised in your state is a two-fold way to be a good citizen. Energy is saved by limiting fuel needed for transport, and farmers earn a living so that their properties remain working farms. A farm I visited in Vermont had some of its yarn labeled as coming from Bob the llama! While you needn’t get quite that close to the source of your fiber, it is a terrific way to educate yourself about the fiber chain that leads from Bob to a finished product.

There are ways to help the people that create your yarn, even if they live far away. Mango Moon was developed to help women in Nepal find employment. In this case, yarn is the difference between earning a living and going hungry. Owner Laurie Cook tells us, “In Nepalese society women have limited options in what they can do. Spinning is something they can do in their homes, and it’s seen as an acceptable occupation.” Many products are created from waste

fiber salvaged from the manufacture of other products and hand-spinning is environmentally friendly.

What about yarns labeled as organic? “Organic” on a skein of yarn doesn’t always mean the same thing; many organizations certify products as organic, but some have higher standards than others. A yarn can be made from an organically produced animal or plant or processed into yarn via an organic process (low-energy usage, laundered without petrochemicals, responsible dyeing and disposal of waste products), but not all yarns are both organically raised and produced. Yarn companies are not trying to trick you when they call their products organic, but be aware that it might not mean what you think!

Lion Brand is home to two organic cottons—Lion Organic Cotton and Nature’s Choice.

Cotton was a good fiber choice for their organic line, because it is not quite so nebulous.

“There is pretty much a consensus on what makes cotton organic,

but in terms of wool there isn’t an international consensus. There are so many factors when you are talking about a sheep as opposed to a plant,” says Liz Shaw. She added that it is hard to compare one fiber to another “but when you choose an organic as opposed to a commercial cotton, you are reducing pesticides in the world. Cotton growing in general tends to be pesticide heavy.”

Wool and cotton are not the only fibers that can be used in an ecologically responsible manner.

# Best Friend Tote & Vest

## Tote Finished Size

**Base and Sides:** Approx 15 x 62 inches (before felting)

**Tote:** Approx 8½ x 15 x 9 inches (after felting and assembly, and excluding handles)

## Materials

- Worsted weight yarn\* (98 yds/50g per skein): 12 hanks mochica blue #3844 (A)
- Worsted weight ribbon\* (120 yds/50g per ball): 2 balls wrangler #3704 (B)
- Size 8 (5mm) needles
- Size 13 (9mm) 2 double-pointed needles and 29-inch circular needle or size needed to obtain gauge
- Stitch markers
- Box same size as desired size of tote for shaping after felting
- Sewing thread and needle
- Crochet hook (for fringe)
- Plastic canvas (optional for bottom of tote)

\*Sample projects were completed with Jasper (100% merino wool) and Suede (100% nylon) from Berroco Inc.

## Pattern Note

Yarn amount given for B is sufficient for both tote trim and dog vest.

## Tote Gauge

Approx 11 sts = 4 inches/10cm in St st with larger needles and 2 strands of A (before felting).

Exact gauge is not critical to this project, but stitches should be light and airy before felting.

## Pattern Note

Tote is knitted with 2 strands of A held together throughout.

## Base

With circular needle and 2 strands of A, cast on 30 sts. Work in garter st in rows until there are 50 ridges.

## Sides

K30, place marker, pick up and knit 50 sts across long edge of base, place marker, pick up and knit 30 sts across cast-on edge, place marker, pick up and knit 50 sts across rem long edge—160 sts.

Join and work St st in rnds until sides measure 13 inches.

\*Purl 1 rnd, knit 1 rnd; rep from \* until there are 6 ridges on RS. Bind off all sts.

## I-Cord Handles

With dpn and 2 strands of A, cast on 8 sts, \*sl sts to other end of needle, pull yarn firmly across back, k8; rep from \* until cord measures approx 71 inches. Bind off.

## Felting

Place tote and I-cord in a pillowcase or laundry bag. Set the washer to hot wash, cold rinse and lowest water level. Add a small amount of detergent. Add a pair of jeans to help in the agitation process. Check on the piece every 5 minutes. Felting could take 20–25 minutes or so. Keep setting back the timer to make the wash cycle longer. When desired felting is achieved, rinse and spin very lightly. Excessive spinning can set creases. Excess water can also be removed by rolling pieces in a towel.

After felting, place empty plastic bag over appropriate-size box and place box inside tote to shape it. Allow to dry with box inside.

## Assembly

Mark 4 corners of bag with straight pins. On top edge of 1 short side, mark a semicircle. Zigzag st by hand, or machine if desired, to reinforce edge. Cut out semicircle.

## Binding

With B and smaller needles, cast on 9 sts.

forth in rows except for armbands.

Designer recommends placing  
markers between pats to make it  
easier to keep track.

**Finished Size**  
5-inch cube

## Materials

- Worsted weight yarn\* (241 yds/100g per ball): 1 ball each white #00001 (A), navy #00034 (B), cardinal #00005 (C), school bus yellow #00432 (D), really green #10708 (E)
- Size 6 (4mm) double-pointed needles (2 for I-cord)
- Size 9 (5.5mm) needles or size needed to obtain gauge
- Approx 2½ oz polyester fiberfill per block

\*Sample project was completed with Canadiana (100% acrylic) from Patons.

## Block

With larger needles and B, cast on 21 sts. Work in twisted garter st for 32 rows—16 ridges. Continuing in twisted garter st, knit 2 rows A, 32 rows C, 2 rows A, 32 rows D, 2 rows A, 32 rows E, 2 rows A. Bind off with A.

With A, RS facing, along 1 long side of strip just made, pick up and knit 21 sts in each color block—84 sts.

Turn and bind off purlwise. Rep on other long side of strip. Sew cast-on edge to short bound-off edge to form 4-sided tube.

## Sides

### Make 2

With A, cast on 21 sts. Work in twisted garter st for 32 rows—16 ridges.

Bind off all sts.

Sew 1 A square to end of tube as follows: Place sts underneath and on inside of bound-off edges at sides of tube, so that knit chain formed when binding off is visible at outside edge of cube. Do not sew 2nd square to block yet.

## Letters

**Note:** When casting on for I-cord, leave long enough tail to sew letter to cube. To sew letters to cube, pin in place following charts and sew through center of cord with a running st. Bring needle up from back of work through 1 row of cord and back down through very next row. Skip 2 rows before coming back up again. This will be virtually invisible in finished block.

**Letter A:** With C, make 2 lengths of I-cord each 4½ inches long, and 1 length 2 inches long. Sew to A side of block.

**Letter B:** With B, make 2 lengths of I-cord each 3¼ inches long, and 1 length 5 inches long. Sew to D side of block.

**Letter C:** With E, make 1 length of I-cord 7½ inches long. Sew to A side of block.

**Letter D:** With D, make 1 length of I-cord 3¾ inches long, and 1 length 7½ inches long. Sew to B side of block.

## Finishing

Sew all rem seams except 1. Stuff with fiberfill and sew last seam. ■

## Gauge

16 sts and 14 ridges = 4 inches/  
10cm in twisted garter st with  
larger needles.

To save time, take time to  
check gauge.

## Pattern Note

Twisted garter stitch is worked by knitting in the back of each stitch throughout. It forms a denser fabric that covers the fiberfill better.

## Special Technique

With dpn, cast on 4 sts, do not turn, \*sl sts to other end of needle, pull yarn across back, k4, rep from \* until cord is desired length. To end, cut yarn, leaving a 3-inch tail, pull end through sts.

## Pompoms

Cut two cardboard circles in size specified in pattern. Cut a hole in the center of each circle, about ½ inch in diameter. Thread a tapestry needle with a length of yarn doubled. Holding both circles together, insert needle through center hole, over the outside edge, through center again (Fig. 1) until entire circle is covered and center hole is filled (thread more length of yarn as needed).

Fig. 1

With sharp scissors, cut yarn between the two circles all around the circumference (Fig. 2).

Fig. 2

Using two 12-inch strands of yarn, slip yarn between circles and overlap yarn ends two or three times (Fig. 3) to prevent knot from slipping, pull tightly and tie into a firm knot. Remove cardboard and fluff out pompom by rolling it between your hands. Trim even with scissors, leaving tying ends for attaching pompom to project.

Fig. 3

## Tassel

Wrap yarn around a card to desired length, cut one end and tie securely in middle. Tie again around all yarn below first tie.

## Zipper How-To

Zippers can easily be added to a knit garment. Different weights of garments need different-weight zippers. Heavy separating zippers are used on jackets and cardigans, while regular dressmaking zippers are used for neck or skirt openings.

The zipper should be sewn in by hand using a backstitch through both the zipper and knit piece.

To add a zipper, place the knit edges over the zipper so the zipper teeth are

covered and the seam is centered over the zipper. From the right side, pin in place.

On the wrong side tack the edges of the zipper to the garment.

Turn to the right side and backstitch the zipper in place.

## Fringe

Cut a piece of cardboard half as long as specified in instructions for length of strands plus ½ inch for trimming. Wind yarn loosely and evenly around cardboard. When cardboard is filled, cut yarn across one end. Do this several times, then begin fringing. Wind additional strands as necessary.

Single-Knot Fringe

### Single-Knot Fringe

Hold specified number of strands for one knot together, fold in half. Hold project to be fringed with right side facing you. Use crochet hook to draw folded end through space or stitch indicated from right to wrong side.

Pull loose ends through folded section. Draw knot up firmly. Space knots as indicated in pattern instructions.

## 3-Needle Bind-Off

Use this technique for seaming two edges together, such as when joining a shoulder seam. Hold the edge stitches on two separate needles with right sides together.

With a third needle, knit together a stitch from the front needle with one from the back.

Repeat, knitting a stitch from the front needle with one from the back needle once more.

Slip the first stitch over the second.

Repeat, knitting a front and back pair of stitches together, then bind one off.

## We've included the basics here for your reference.

### Cast On

Leaving an end about an inch long for each stitch to be cast on, make a slip knot on the right needle.

Place the thumb and index finger of your left hand between the yarn ends with the long yarn end over your thumb, and the strand from the skein over your index finger. Close your other fingers over the strands to hold them against your palm. Spread your thumb and index fingers apart and draw the yarn into a "v"

Place the needle in front of the strand around your thumb and bring it underneath this strand. Carry the needle over and under the strand on your index finger.

Draw through loop on thumb.

Drop the loop from your thumb and draw up the strand to form a stitch on the needle.

Repeat until you have cast on the number of stitches indicated in the pattern. Remember to count the beginning slip knot as a stitch.

### Cable Cast On

This type of cast on is used when adding stitches in the middle or at the end of a row.

Make a slip knot on the left needle. Knit a stitch in this knot and place it on the left needle. Insert the right needle between the last two stitches on the left needle. Knit a stitch and place it on the left needle. Repeat for each stitch needed.

### Knit (k)

Insert tip of right needle from front to back in next stitch on left needle.

Bring yarn under and over the tip of the right needle.

Pull yarn loop through the stitch with right needle point.

Slide the stitch off the left needle. The new stitch is on the right needle.

### Purl (p)

With yarn in front, insert tip of right needle from back to front through next stitch on the left needle. Bring yarn around the right needle counter-clockwise. With right needle, draw yarn back through the stitch.

Slide the stitch off the left needle. The new stitch is on the right needle.

### Bind-Off

#### Binding off (knit)

Knit the next stitch and repeat. When one stitch remains on right needle, cut yarn and draw tail through last stitch to fasten off.

#### Binding off (purl)

Purl first two stitches on left needle. Insert tip of left needle into first stitch worked on right needle and pull it over the second stitch and completely off the needle.

Purl the next stitch and repeat. When one stitch remains on right needle, cut yarn and draw tail through last stitch to fasten off.

### Increase (inc)

Two stitches in one stitch

### Invisible Increase (M1)

There are several ways to make or increase one stitch.

#### Make 1 with Left Twist (M1L)

Insert left needle from front to back under the horizontal loop between the last stitch worked and next stitch on left needle.

With right needle, knit into the back of this loop.

To make this increase on the purl side, insert left needle in same manner and purl into the back of the loop.

#### Make 1 with Right Twist (M1R)

Insert left needle from back to front under the horizontal loop between the last stitch worked and next stitch on left needle.

With right needle, knit into the front of this loop.

To make this increase on the purl side, insert left needle in same manner and purl into the front of the loop.

#### Make 1 with Backward Loop over the right needle

With your thumb, make a loop over the right needle.

Slip the loop from your thumb onto the needle and pull to tighten.

### Make 1 in top of stitch below

Insert tip of right needle into the stitch on left needle one row below.

Knit this stitch, then knit the stitch on the left needle.

## Decrease (dec)

### Knit 2 together (k2tog)

Put tip of right needle through next two stitches on left needle as to knit. Knit these two stitches as one.

### Purl 2 together (p2tog)

Put tip of right needle through next two stitches on left needle as to purl. Purl these two stitches as one.

## Slip, Slip, Knit (ssk)

## Skill Levels

BEGINNER

Projects for first-time knitters using basic knit and purl stitches. Minimal shaping.

EASY

Projects using basic stitches, repetitive stitch patterns, simple color changes and simple shaping and finishing.

INTERMEDIATE

Projects with a variety of stitches, such as basic cables and lace, simple intarsia, double-pointed needles and knitting in the round needle techniques, mid-level shaping and finishing.

EXPERIENCED

Projects using advanced techniques and stitches, such as short rows, Fair Isle, more intricate intarsia, cables, lace patterns and numerous color changes.

**KNITTING NEEDLES CONVERSION CHART**

U.S.	0	1	2	3	4	5	6	7	8	9	10	10½	11	13	15
Metric(mm)	2	2¼	2½	3¼	3½	3¾	4	4½	5	5½	6	6½	8	9	10

**Basic Stitches****Garter Stitch**

On straight needles knit every row. When working in the round on circular or double-pointed needles, knit one round then purl one round.

**Stockinette Stitch**

On straight needles purl right-side rows and purl wrong-side rows. When working on circular or double-pointed needles, knit all rounds.

**Reverse Stockinette Stitch**

On straight needles knit right-side rows and knit wrong-side rows. On circular or double-pointed needles, purl all rounds.

**Ribbing**

Combines knit and purl stitches within a row to give stretch to the garment. Ribbing is most often used for the lower edge of the front and back, the cuffs and neck edge of garments.

The rib pattern is established on the first row. On subsequent rows the knit stitches are knitted and purl stitches are purled to form the ribs.

**Reading Pattern Instructions**

Before beginning a pattern, look through it to make sure you are familiar with the abbreviations that are used.

Some patterns may be written for more than one size. In this case the smallest size is given first and others are placed in parentheses. When only one number is given, it applies to all sizes.

You may wish to highlight the numbers for the size you are making before beginning. It is also helpful to place a self-sticking note on the pattern to mark any changes made while working the pattern.

**Measuring**

To measure pieces, lay them flat on a smooth surface. Take the measurement in the middle of the piece. For example, measure the length to the armhole in the center of the front or back piece,

not along the outer edge where the edges tend to curve or roll.

**Gauge**

The single most important factor in determining the finished size of a knit item is the gauge. Although not as important for flat, one-piece items, it is important when making a clothing item that needs to fit properly.

It is important to make a stitch-gauge swatch about 4 inches square with recommended patterns and needles before beginning.

Measure the swatch. If the number of stitches and rows are fewer than indicated under "Gauge" in the pattern, your needles are too large. Try another swatch with smaller-size needles. If the number of stitches and rows are more than indicated under "Gauge" in the pattern, your needles are too small. Try another swatch with larger-size needles.

Continue to adjust needles until correct gauge is achieved.

**Working From Charts**

When working with more than one color in a row, sometimes a chart is provided to follow the pattern. On the chart each square represents one stitch. A key is given indicating the color or stitch represented by each color or symbol in the box.

When working in rows, odd-numbered rows are usually read from right to left, and even-numbered rows from left to right.

Odd-numbered rows represent the right side of the work and are usually knit. Even-numbered rows represent the wrong side and are usually purled.

When working in rounds, every row on the chart is a right-side row, and is read from right to left.

**Use of Zero**

In patterns that include various sizes, zeros are sometimes necessary. For example, k0 (0, 1) means if you are

making the smallest or middle size, you would do nothing, and if you are making the largest size, you would k1.

**Glossary**

**bind off**—used to finish an edge

**cast on**—process of making foundation stitches used in knitting

**decrease**—means of reducing the number of stitches in a row

**increase**—means of adding to the number of stitches in a row

**intarsia**—method of knitting a multi-colored pattern into the fabric

**knitwise**—insert needle into stitch as if to knit

**make 1**—method of increasing using the strand between the last stitch worked and the next stitch

**place marker**—placing a purchased marker or loop of contrasting yarn onto the needle for ease in working a pattern repeat

**purlwise**—insert needle into stitch as if to purl

**right side**—side of garment or piece that will be seen when worn

**selvage stitch**—edge stitch used to make seaming easier

**slip, slip, knit**—method of decreasing by moving stitches from left needle to right needle and working them together

**slip stitch**—an unworked stitch slipped from left needle to right needle, usually as if to purl

**wrong side**—side that will be inside when garment is worn

**work even**—continue to work in the pattern as established without working any increases or decreases

**work in pattern as established**—continue to work following the pattern stitch as it has been set up or established on the needle, working any increases or decreases in such a way that the established pattern remains the same

**yarn over**—method of increasing by wrapping the yarn over the right needle without working a stitch

Companies like South West Trading Co. have modeled their entire line around sustainable fibers. While some were experimenting with fiber-based yarn using soy as early as the 1940s, World War II was wreaking havoc with fabric production because so much was needed for the armed forces. South West's Phoenix line was one of the first yarns on the market that was produced without the use of petrochemicals. Soysilk is created from the waste from the tofu manufacturing process, and the soy plant grows quickly and safely. Soysilk's success led to the development of other fibers from bamboo, milk and corn, all based on the idea of creating quality yarns from renewable resources.

The best thing about "green" yarns might be their beauty. Many times the

right decision is not always the easy one. What a relief that we can knit with such wonderful yarns and do some good at the same time! "We strive to provide eco-luxury" says Jonelle Raffino, president of South West Trading Co. "Even if you knew nothing about the ecology of these products you would fall in love with them, and it's a step in the right direction."

"Knitters want to be responsible, and they want to be conscious, but they also want a quality product that is enjoyable and fun to work with," says Liz Shaw. "It has to come back to that: Knitting is a leisure activity. If it isn't fun, why do you do it?"

Buying responsibly doesn't have to be a bitter pill to swallow. Sometimes knitters are doing good for the planet and don't even know it! ■

Rep Rows 1–4 for pat.

## Pattern Notes

The drape of this fabric can make measuring a challenge. Be sure to spread the shawl out to its full width before measuring the length.

Insert a “lifeline” on a plain knit row in case you need to rip back. Use a tapestry needle with dental floss or smooth thread and go

into each stitch on the row. Dropped sts can be extremely hard to recover due to the silkiness of the yarn and the lace pattern.

## Tip Off

Some interchangeable needles have a tiny hole near the join. Insert a long length of dental floss, secure and knit as usual. Instant lifeline!
